**dream it...print it ...hang it**

## **Wall Wrap Peel & Stick**

**New Dreamscape Textured Wall Wraps is more than twice as durable and four times as thick as other peel and stick films so it won't stretch out of form during installation. Its 13mil thickness coupled with its unique, textured surface helps Dreamscape Textured Wall Wraps mask imperfections in walls and display substrates.**

**New Dreamscape Textured Wall Wraps also meets the digital printing industry's standards for textured materials that enhance image impact and color, depth, dimension and durability and meets all requirements for use with solvent , eco-solvent and UV curable printers. Available in two textures Caviar and Monet. Caviar is a fine pebble surface and Monet replicates a textured fabric weave.**

**In addition the new material has outstanding adhesion capabilities for and installation where easy application and repositioning are required. The new material is perfect for wall graphics, tradeshow displays, wide format murals, advertising and point of purchase displays and signage particularly in short to mid-term applications where images need to be changed frequently stability and efficiently.**

**Dreamscape's durability and adhesion qualities make it extremely user friendly, allowing trade show and exhibit managers and retail professionals to replace and install new promotional graphics themselves without the traditional concerns about applying adhesives or the dimensional stability of the material.**
