

Backlit Film - 5 mil

■ gloss 3194

# UV Flexible Films

## Stunning lights-off *and* lights-on!

3194 - Fusion Flexible Backlit Film is a dimensionally stable premium polyester film. The imaging surface is treated with a specially designed topcoat to promote ink adhesion when printed on UV Curable printers. The back is coated with an opacifying layer to ensure uniform light dispersion when backlit.

### Physical Properties

Caliper	5 mil
Gloss (60°)	110
